Excursions

The Power Of Les Waterfall Excursion ~ Take a guided hike through plantations and jungle to experience the power of this natural wonder. (3-4 Hours)

Sekumpul Waterfall ~ It crashed down violently onto the rocks with a rumbling sound that subverted the serenity of the green forest. Sitting in front of such grandeur of nature make humans seem small and meaningless, although located deep in the interior, sekumpul is fairly known well (3-5 hours)

Balinese Cultural Excursion ~ This one is uniquely our own and also one of our most popular excursions. Discover the inner workings of Balinese society and way of life. Visit plantations, farms, and traditional homes. Learn about traditional fishing techniques in the area, hear some local fishing folklore and check on the catch of the day. You will get out and meet the people and learn about the daily rituals. Your english-speaking Balinese guide will show you the village through his eyes, answering questions along the way – a unique perspective from which few the island ever get to see. (3 – 5 hours).

Tajun Temple & Bali Aga Village Excursion ~ Take a step back in time and visit the oldest Hindu temple in Bali, only recently opened to people who don't live in this village, and connect with the ancient spirits. Then it's on to Bali Aga village to see some of the last remaining Balinese who have adhered to the original belief system before Hinduism was introduced to the island. Many elements of these original beliefs have been incorporated into the Balinese Hindu way of life which is why Hinduism in Bali is practiced much differently than in India. (3-5 hours)

Singaraja Excursion ~ Replenish your supplies, use ATM, visit the traditional market and see examples of Dutch Colonial architecture of an era gone by (3-6 hours).

Visit To The Balinese Healer ~ (1 hours)

Visit To The Muscle Healer ~ (1 Hour)

Activities At Sea

Dolphin Watching ~ Take a traditional jukung out to join the dolphins for a spectacular sunrise off the north coast. Spotted dolphins, Spinner dolphins and Bottlenose dolphins are among the species that frequent the area.

Coral Fishing ~ Closer to shore and in more shallow water, use a traditional hand line to try and catch dinner among the tasty fish that live amongst the coral, like white and red snapper!

Deep Sea Fishing ~ Out on open water, you'll trawl for bait fish to catch 'the big one'. Learn to rig up the jerry cans for 'absentee fishing' and bait your own hooks and try your hand at catching yellowfin tuna, skipjack tuna, mahi-mahi and marlin (if you are lucky!) with traditional hand line. No fancy rods and reels here – strictly old school.

Scuba Diving Certification ~ Always wanted to try scuba diving ? Villa Boreh offers SCUBA certification on-site.

Scuba Diving ~ There are no shortage of dive spots in Bali.
